

# BROW LAMINATION AFTER CARE

HELLOOO new fluffy brows! To keep them looking healthy and fluffy please follow these after care instructions:

- Do not get your eyebrows wet for a full 24 hours after the treatment
- Do not have a hot bath/shower or use a sauna, steam room or swimming pool for at least 24 hour
- Try to use oil free makeup remover at all times
- Do not spend too long in direct sunlight as this will weaken the perm effect and fade the tint colour
- Chlorine and certain skin care will shorten the effects of the perm and tint

## HOW TO MAINTAIN YOUR LAMINATION:

- Condition them in the shower with standard hair conditioner
- Set/style them when wet into the shape you like
- Oil every night with castor oil (just a thin layer). Because you're applying this overnight, you'll need to wash your brows in the morning to ensure the oil is removed.
- Brush daily with care

BROW LAMINATION IS LOW MAINTENANCE NOT NO MAINTENANCE. They should last up between 4 - 6 weeks if you following the after care instructions.
